

# Thesis title

**Author name**

Primary supervisor: Supervisor name

Secondary supervisor: Supervisor name

Department of Chemistry

University College London

This thesis is submitted for the degree of

*Doctor of Philosophy*

Submission date: Day Month Year

# Declaration

I, Author name, confirm that the work presented in this thesis is my own. Where information has been derived from other sources, I confirm that this has been indicated in the thesis.

Author name
London, United Kingdom
Day Month Year

# Abstract

Insert your abstract here (maximum 300 words).

# Impact statement

Insert your impact statement here (maximum 500 words).

# Publications

List relevant publications here, if applicable.

# Acknowledgements

Insert your acknowledgements here.

# Table of contents

**List of figures** **xv**

**List of tables** **xvii**

**Nomenclature** **xix**

**1 Introduction** **1**
1.1 Research background . . . . . 1
1.2 Research objectives . . . . . 1
1.3 Thesis outline . . . . . 1

**2 Methodology** **3**
2.1 Research methods . . . . . 3

**3 Research** **5**
3.1 Introduction . . . . . 5
3.2 Methods . . . . . 5
3.3 Results and discussion . . . . . 5
3.4 Summary . . . . . 6

**4 Conclusions and outlook** **7**
4.1 Conclusions . . . . . 7
4.2 Future work . . . . . 7

**Appendices** **9**
A Appendix . . . . . 9

**Bibliography** **11**

# List of figures

3.1 Example Figure. . . . . 5

# List of tables

3.1 Example table. . . . . 6

# Nomenclature

## Symbols

| | |
|---|---|
| $E$ | Energy |

## Acronyms

| | |
|---|---|
| DFT | Density functional theory |

# Chapter 1

# Introduction

## 1.1 Research background

## 1.2 Research objectives

## 1.3 Thesis outline

# Chapter 2

# Methodology

## 2.1 Research methods

# Chapter 3

# Research

## 3.1 Introduction

Reference can be cited using [1]. Density functional theory (DFT) is used here to demonstrate acronym formatting.

## 3.2 Methods

Equations can be referenced using Eq. (3.1).

An example equation is given by

$$E = mc^2, \tag{3.1}$$

where $E$ is energy, $m$ is mass, and $c$ is the speed of light.

## 3.3 Results and discussion

Figures can be referenced using Fig. 3.1.

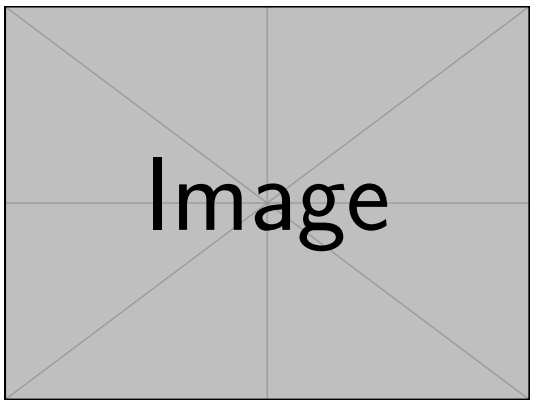

**Fig. 3.1** Example Figure.

Tables can be referenced using Table 3.1.

**Table 3.1** Example table.

| Parameter | Value | Unit |
|---|---|---|
| A | 1.0 | eV |
| B | 2.0 | Å |

## 3.4 Summary

# Chapter 4

# Conclusions and outlook

## 4.1 Conclusions

## 4.2 Future work

# Appendices

## A Appendix
